MOBO & GARDENS AT THE VILLAGE GREEN Newsletter

IN THIS ISSUE:

- UC Volunteer Fair
- Immaculate Sunday
- Go Fund Me
- Website

Our Mission ...

The Village Green Foundation (VGF) cultivates healthy living through sustainable nutrition and carbon free transportation. VGF encompasses Gardens at the Village Green and MOBO Bicycle Co-Op

Our Purpose

VGF brings together diverse members of the Northside community around a common commitment to community building, urban agriculture, and access to healthy food and affordable, local transportation.

UC STUDENT VOLUNTEER FAIR

UC held their Student Volunteer Fair August 25th. VGF had a table and eighty-two students expressed interest. Most wanted additional information. Five students have already volunteered and more are expected.

IMMACULATE SUNDAY

JOIN US SUNDAYS FROM 11 AM TO 2 PM WORKING ON PROJECTS, CLEANING AND ORGANIZING THE PROPERTY INSIDE AND OUT. MODEST REFRESHMENTS PROVIDED.

VGF created a **Go Fund Me** campaign (**Bye-Bye Mosquitoes! Deploying Wings**) to raise money to purchase 5 different types of bird houses & mounting supplies. To date we have raised \$410 of the desired \$570. The next step is to identify where each house will be mounted this Fall to best attract the birds. The goal is to be ready for Spring 2019.

The VGF board has been working on creating a new website to replace the independent websites of MoBo and VGF. We are one organization with two great programs. It will include a volunteer sign-up component, ability to donate, articles, newsletters, updates, events, testimonials, etc.

Watch for updates.

HELP...WE NEED LARGE CARDBOARD BOXES. We are expecting a mulch delivery compliments of Canopy Crew Tree Service. The mulch goes on top of the cardboard to impede weeds along our pathways. Fall preparation is so important in getting a good start for next year. You can leave cardboard on top of the picnic tables.
